Abstract

For your paper to be published in the conference proceedings, you must use this document as both an instruction set and as a template into which you can type your own text. If your paper does not conform to the required format, you will be asked to fix it. The abstract portion is a narrative presentation without references. The abstract should give a concise and informative description of the paper, between 80 to 150 words. Its left and right margin must be equal to 3.5 cm.

Keywords: Three to five keywords or phrases, separated by commas.

1. Introduction

This instruction gives you guidelines for preparing papers for 7th International Industrial Engineering Conference. An easy way to comply with the conference paper formatting requirements is to use this document as a template and simply type your text into it. All papers must be written by Microsoft Word 2007 and be submitted *.docx format.

Your paper must be in one column format with single line spacing between lines and the margins must be set as follows:

- Top = 3 cm
- Bottom = 3 cm
- Left = Right = 2.5 cm

2. Paper length

The length of your paper should not exceed 10 pages. Prepare your printer-ready paper in A4 size, which is 210mm (8.27") wide and 297mm (11.69") long. Please do not change the paper size and the pre-defined styles.

3. Equations

Equation must be written in a two column table with no border like the following example. (Using Microsoft Equation recommends)

$$E = mc^2 \tag{1}$$

$$\sin 2\theta = 2\sin \theta \cos \theta \tag{2}$$

^{1,*} Corresponding author: Position and Special field of the first author

² Position and Special field of the second author

4. Tables and Figures

All of the Tables and Figures must be in the center of the page. Tables and figures should be cited consecutively in the text. Title of the Tables must be in the top left corner of the Table and the title of Figures must be in below of them at center. Before and after the Tables and Figures, an empty line must exist (Times New Roman 11pt. Normal). Table 1 is an example for the authors that show the necessary information to write papers.

5. Conclusion

Conclusion may review the main points of the paper, do not replicate the abstract as the conclusion. It might elaborate on the importance of the work or suggest applications and extensions.

Acknowledgments

Acknowledgments section is optional for paper. The heading of the Acknowledgment section and the References section must not be numbered.

References

All reference items must be in 10 pt font. Please use Regular and Italic styles to distinguish different fields as shown in the References section. Number the reference items consecutively in square brackets (e.g. [1]).

When referring to a reference item, please simply use the reference number, as in [2]. Do not use “Ref. [3]” or “Reference [3]” except at the beginning of a sentence, e.g. “Reference [3] shows ...”. Multiple references are each numbered with separate brackets (e.g. [2], [3], [4]–[6]).

Examples of reference items of different categories shown in the References section include:

- example of a book in [1]
- example of a conference paper in [2]
- example of a journal article in [3]
- example of a website in [4]
- example of a PhD dissertation in [10]
